

# Schaffner Machine Co.

Committed to Quality, Value,  
Delivery, Service, & Safety  
*Since 1940*

- Competitive prices
- ERP: job management from quote to billing
- Computer Aided Manufacturing Software:  
design modification and efficiency programming
- ISO9000 compliant quality control system
- Kanban and JIT compatible
- Short runs: quick turnaround capability
- Lights-out production: unmanned machining  
capability results in higher capacity and lower  
costs
- Provide quick turnaround for machine  
replacement parts
- Our work is 100% guaranteed

*Soli Deo Gloria*

# Your Complete Machining Solution

Schaffner's CNC Swiss and conventional lathes allow for the machining of a wide range of turned parts: shafts, pins, rods, and precision tubing, with working ODs of up to 3" (1-1/4" for Swiss Turning) and lengths of up to 7 feet.

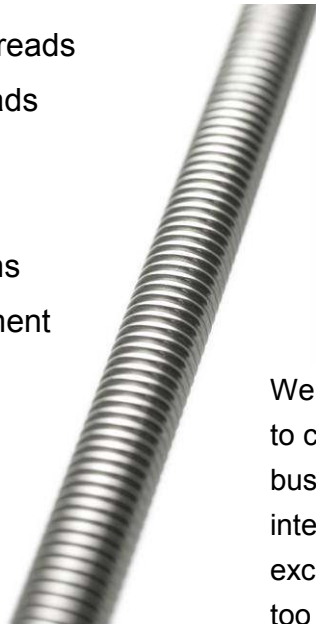

Complex parts can be run complete in one setup utilizing our CNC Swiss Lathe Machining Centers for turning standard or pre-threaded stock. This significantly reduces time for handling, setup, and machining, allowing for quick turnaround and cost efficiency.

## Specializing in Standard & Rolled Threads

- Up to 1" OD standard threads
- Up to 3/4" OD acme threads
- Up to 12' long bars

### Complete Shafts for:

- Wheel alignment systems
- Precision honing equipment
- Turnbuckles
- Brake lathes

## Centrally Located to Meet Your Needs

We provide quality machined goods and services to clients who range in size from small businesses with a handful of employees to international companies with annual sales in excess of 10 billion dollars. No job is too big or too small.

**CNC Milling, Drilling, Tapping, and Assembling Complete Our Services**

## Centerless Grinding

- Long bar grinding up to 20'
- .01" to 3" OD
- Diameter tolerances to .0002"
- We can supply material or grind your material: steel, brass, aluminum, stainless, & plastic
- Surface finishes to 8 rms
- Thru-feed & plunge grind capabilities on previously machined components

## We Proudly Serve the Following Industries:

- Medical
- Automotive Service Equipment
- Petroleum
- Aerospace
- Telecommunications
- Butterfly Valve
- Railroad
- Military
- Automated Conveyor Systems
